Safety Initiatives

The **HANDHELD SPEED SAFETY CAMERA SOLUTION** empowers law enforcement with the ability to capture, review and issue speed citations safely from the roadside.

Maneuvering into traffic and chasing down speeders can be a dangerous and resource-intensive task. **ATS STREETSAFE** minimizes officer risk and streamlines speed enforcement.

- Contact-Free Enforcement
- No Traffic Stop Required
- Inclusive Evidence Packages
- LIDAR Speed Detection

VERRA MOBILITY

- A global leader in smart transportation
- A leading provider of road safety cameras in the U.S.

END-TO-END SERVICES

- Maintenance & field services
- Event processing
- Citation printing & mailing
- Safety program analytics
- Payment support
- Court support
- Public awareness efforts

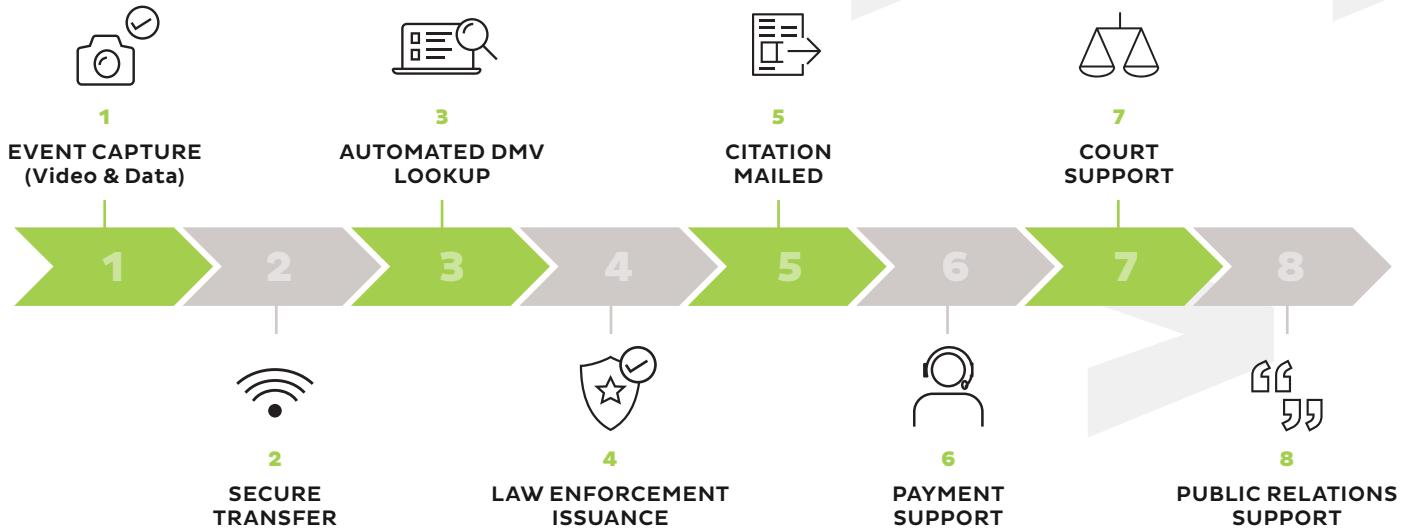

FEATURED TECHNOLOGY

- 5MP camera
- High-definition video
- Wireless event transfer
- Automated DMV lookup
- Auto-focus & auto-iris
- Location ranging
- Large LCD display

HANDHELD SPEED ENFORCEMENT

SLOW TRAFFIC AND ENHANCE COMMUNITY SAFETY

HANDHELD SPEED EVENT WORKFLOW

ENFORCE SPEED SAFELY FROM THE ROADSIDE

Unlike traditional systems, **ATS STREETSAFE** enables an officer to either proceed with a traffic stop or **safely review and issue speed citations from the roadside.**

Speed events are wirelessly uploaded through a secure connection to Verra Mobility's Axis™ Smart Mobility Platform. The automated system promptly extracts the plate number, populates owner-registration data and sends the event back to the officer for review.

Once issued by the officer, a comprehensive evidence package is generated that includes high-resolution photos, high-definition video and pertinent event data. A court-approved citation is then mailed to the registered owner of the vehicle.
